Glassbrick.

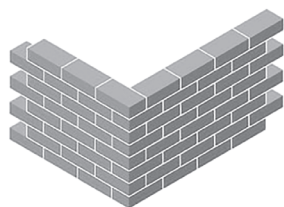

4" × 8" × 2" (100 × 200 × 50 mm)

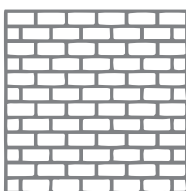

Jade

Interstyle's innovative glass bricks serve as both a natural light source and a striking decorative element for architectural designs. Frequently incorporated as accents in walls, skylights, and sidewalk lights, their versatility invites creative applications beyond the ordinary. Imagine glass bricks enhancing fireplaces, fire pits, barbecue grills, pools, ponds, hot tubs, or even greenhouses—bringing brightness, energy efficiency, and exceptional aesthetics to any space.

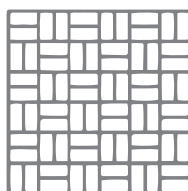

These bricks are easy to install in various configurations, such as stacked, running bond, basketweave, or custom combinations, offering endless design possibilities. Contemporary, structurally solid, and visually stunning, they redefine modern architectural beauty.
