## Cleaning and Maintenance Instructions for Interstyle Glass Blocks

Interstyle glass blocks are manufactured using standard soda-lime glass, the same formulation used in most window glass. As such, they do not require any special cleaning procedures and can be maintained just like any regular glass surface.

### Recommended Cleaning Method:

- Mix a few drops of **Dawn dish soap** in a bucket of **warm water**.
- Add a **small amount of white vinegar** (optional) to help cut through grease or mineral deposits.
- Use a **soft cloth, sponge, or non-abrasive brush** to gently clean the surface.
- Rinse with clean water and dry with a lint-free cloth for a streak-free finish.

### Products to Avoid:

- We do **not recommend using Windex** or other colored glass cleaners, as the blue dye may **stain the surrounding mortar** or grout lines.
- Avoid abrasive cleaners or pads, which may scratch the glass surface.

With regular maintenance using these simple steps, your Interstyle glass blocks will retain their clarity and beauty for years to come.
